GEORG

BR (K R)

W R

DR (K) (L)

A pixelated, black and white representation of the word "wowee". The letters are thick and blocky, with a jagged, pixelated edge. The 'w' is formed by two 'v' shapes, the 'o's are simple circles, and the 'e's have a distinct horizontal bar. The overall style is reminiscent of early digital art or a low-resolution font.

The text "I'm odd" is rendered in a pixelated, black and white font. The letters are thick and blocky, with a slightly irregular, hand-drawn appearance. The 'I' is a simple vertical bar with a small horizontal base. The 'm' consists of three vertical stems connected by a horizontal bar at the top. The 'o's are simple circles. The 'd' is a circle with a vertical stem on the right. The 'e' is a circle with a horizontal bar on the right. The 'o' at the end is a simple circle. The overall style is reminiscent of early digital art or video game text.

$$E_{l,k}^{(K_k)} = \prod_{i=0}^{\sqrt{n}-1} \prod_{t=0}^{\sqrt{n}-1} \left(\kappa_l^{(K_z)} \odot \chi_l^{(\frac{t}{2})} \odot \pi_l \odot \Gamma_l \odot \Omega_l \odot \vartheta_l \right) || \left(\kappa_l^{(K_z)} \odot \left(\vartheta_l | \Omega_l | \Gamma_l | \pi_l | \chi_l^{(\frac{t+1}{2})} | \kappa_l^{(K_z)} \right) \Psi^{(K_z)} \right),$$

$$x_1(c+1)(2)$$

A pixelated, black and white graphic of the mathematical expression $x^2 + 2x + 1$. The characters are rendered in a thick, blocky, pixelated font. The 'x' is on the left, followed by a plus sign, then '2', another plus sign, '2x', and finally '1' on the right. The entire expression is centered horizontally. The image has a low-resolution, digital-art style appearance.
